5 Silvermark Herb Snips (www.silvermk.com). Similar to kitchen shears, these stainless steel herb snips feature micro-serrated blades and rounded, nylon resin ergonomic handles, making them perfect for snipping basil, chives or tarragon. Special "teeth" near the base of the blades let you strip fresh rosemary from its branch in one single motion. The shorter blades offer a more precise cut. Pull-apart handles make them easier to clean and to dry more thoroughly. Hand wash. \$10.
